On behalf of the Mayor and Council, thank you for reaching out and sharing your thoughts and feedback. I've ensured that each member has received a copy of your message.

Your email was forwarded to the appropriate department to be included in the official Price Road Innovation Campus Project file.

We greatly appreciate your engagement in our community's governance. If you have any further questions or comments, please don't hesitate to contact us.

Best regards,

City of Chandler Mayor and Council Office

Report Suspicious

Honorable Mayor and Council Members,

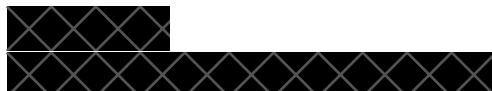

I am writing to express my vehemently strong opposition to any new, and current for that matter, data centers in Chandler.

I purchased my forever home in Chandler after a several year search. I found a home that was several miles from any major freeway. The lot was adjacent to a large beautiful, QUIET, greenbelt in the Clemente Ranch subdivision. I use the word 'was' because after experiencing several years of quiet coffee on my patio the Cyrus data center on Price just north of Queen Creek opened. This changed EVERYTHING ! And to make a long story short, despite trying to work with the data center, hiring legal representation and showing up in mass to city council meetings ,the center to this day continues to emit an obtrusive, invasive continuous humming noise that has shattered the ambiance I used to enjoy in my backyard. The council at the time seemed to have empathy with our predicament but we were told that previous councils had approved the permits and nothing could be done to change this travesty. (yes, eventually the company agreed to add sound inhibitors to their site, however these modifications have proven to be woefully inadequate at restoring the peacefulness to my home)

Although it seems nothing can be done to rectify the greediness , and/or lack of foresight of the previous council, this council can do the right thing. In addition to noise pollution I am sure you are all aware of the vast amounts of water and electricity these businesses use. Please do not approve any new zoning requests or permits for data centers in Chandler, even if Arizona's failed Senator Sinema tries to extort this council.

Please protect the quality of life for us Chandler residents.

Sincerely,

A horizontal redaction mark consisting of a thick black bar with a diamond grid pattern.
